How do I change the appearance of my survey? I want to use fonts with different sizes, styles and colors.

The Online Designer tool allows you to edit fields and alter the appearance of the field label. You can use HTML codes to change the appearance of the text on your REDCap form.

To view all the font options and their respective HTML Codes visit: https://redcap.research.yale.edu/surveys/?s=PCFJH9A7DR

Example:

1. To change the background color and style, the following HTML code can be added to the field label:

```html
<dlv style="width: 100%; color: white; background-color: orchid; padding: 0.5rem; letter-spacing: 0.5px">INCLUSION CRITERIA</dlv>
```

Here is the display of the HTML code above appearing in the REDCap data entry form:
